## General Rules

### 1. Game Outline

#### 1-1. Number of Players

1-1-1. This game is a 2-player competitive game. There are currently no written rules for games with 3 or more players.

#### 1-2. Victory Condition

1-2-1. The game ends when either player loses the game. When a player's opponent loses the game, and that player did not, they win the game.

1-2-1-1. The game's lose conditions are as follows.

1-2-1-1-1. The number of cards in your Life Area is reduced to zero.

1-2-1-1-2. The number of cards in your Deck Area is reduced to zero.

1-2-2. When either player has fulfilled the loss conditions, that player loses the game via rule processing at the next rule processing timing.

1-2-2-1. During the game, when either player's Life is at 0, they fulfill loss conditions.

1-2-2-2. During the game, when the number of cards in either player's deck area is 0, they fulfill loss conditions.

1-2-3. When all players simultaneously fulfill loss conditions, the

game is a draw.

1-2-4. Either player can surrender during the game at any time of their liking. A surrendering player instantly loses and the game is over.

1-2-5. The act of surrendering is not affected by any cards. Players can never be forced to surrender due to card effects, and loss by surrendering is not subject to any replacement effects.

1-2-6. Some cards can either make a player win or lose the game. Such effects will instantaneously make the player win or lose, ending the game during its resolution.

#### 1-3. Fundamental Principles

1-3-1. Any card text that conflicts with the General Rules will be prioritized over the rules.

1-3-2. If a player is requested to perform an impossible act due to some reason, that act will not be carried out. Likewise, if an effect requests a player to carry out a series of actions and some of those actions are impossible, conduct as much of requested actions as possible.

1-3-2-1. If an existing object is requested to be changed to some state yet it is already in that state, the object does not again become that state; the action itself is not carried out.

1-3-2-2. If a player is requested to carry out some action 0 or a negative number of times due to some reason, that action is not carried out. Conducting a certain action negative times does not imply carrying out its opposite action.

1-3-3. If a card effect directs a player to carry out a certain action, yet there is an active effect prohibiting that action, that effect is prioritized and the action is not conducted.

1-3-4. If multiple players are simultaneously requested a choice due to some reason, the turn player makes their choice first. The non-turn player chooses after that.

1-3-5. If a player is to name a number due to card effects or rules, if there are no indications the number must be an integral number above 0. Numbers lower than 1, numbers that include fractions, or negative numbers cannot be chosen.

1-3-5-1. If cards or rules indicate a maximum number such as "up to...," if there are no indications of a minimum number the player can choose 0.

1-3-6. If a card effect rewrites data on a card, if there are no special

indications or if there are no definitions in the rules, numbers on a card do not become fractions lower than 1. If the numbers were to reach negative values, they are treated as 0 (except for when further additions/subtractions are carried out to the number).

## 2. Card Data

### 2-1. Card Name

2-1-1. This is the card's proper name.

2-1-2. Some text will indicate nouns with <<<>>, without descriptions on what kind of information it is. These texts are referring to card names.

### 2-2. Illustrations

2-2-1. This is the illustration depicting the card's image.

2-2-2. The illustration does not affect gameplay.

### 2-3. Card Types

2-3-1. This is an indication of the card type.

2-3-2. There are 3 types of cards: Leader Cards, Battle Cards, and Extra Cards.

2-3-2-1. Leader Cards are placed in the Leader Area.

2-3-2-1-1. If a card text refers to a "Leader" or "Leader Card" it is referring to the Leader Card in the Leader Area.

2-3-2-1-2. Leader Cards have descriptions on both the front and back of the card. During play, only the descriptions of the side facing up are relevant; the descriptions on the other side are regarded as absent.

2-3-2-1-3. If the card back is facing up, all descriptions on that side are active, and everything on the front is absent.

2-3-2-2. Battle Cards are primarily placed in the Battle Area and Combo Area.

2-3-2-2-1. If a card text refers to a "Battle Card," it is referring to a card of the card type "Battle Card."

2-3-2-3. Extra Cards are cards that activate skills by being placed into the Drop Area from the hand.

2-3-2-3-1. If a card text refers to an "Extra Card," it is referring to a card of the card type "Extra Card."

### 2-4. Colors

2-4-1. This information indicates the card's color. A card's color can

be referred to in card text and cost payment.

2-4-1-1. There are five colors: red, blue, green, yellow, and black.

### 2-5. Character Names

2-5-1. This information indicates the name of the card character.

2-5-2. The information does not directly influence gameplay, yet the data can be referred to in card text.

2-5-3. Some text will indicate nouns with < >, without descriptions on what kind of information it is. This text is referring to character names.

2-5-4. Only Leader Cards and Battle Cards have character names.

### 2-6. Special Trait

2-6-1. This is an indication of the card's special trait.

2-6-2. The information does not directly influence gameplay, but the data can be referred to in card text

2-6-3. Some cards will have multiple special traits. Multiple traits will be listed with /.

2-6-4. Some text will indicate nouns with << >>, without descriptions on what kind of information it is. This text is referring to special traits.

2-6-5. Only Leader Cards and Battle Cards have special traits.

### 2-7. Era

2-7-1. This is an indication of which storyline and era the character appeared in.

2-7-2. The information does not directly influence gameplay, but the data can be referred to in card text.

2-7-3. Only Leader Cards and Battle Cards have Era indications.

### 2-8. Power

2-8-1. This indicates the card's power in battle. Check "7.Card Attacking and Battle" for details.

2-8-2. Only Leader Cards and Battle Cards have power.

2-8-3. **Effects that reduce power can reduce power to less than zero (negative values).**

### 2-9. Combo Power

2-9-1. This indicates how much power this card adds in a combo. Check "7.Card Attacking and Battle" for details.

2-9-2. Only Battle Cards have Combo Power.

### 2-10. Combo Cost

2-10-1. This indicates how much it costs to place this card from your hand or Battle Area into the Combo Area. Check "7.Card Attacking and Battle" for details.

2-10-2. Only Battle Cards have Combo cost.

## 2-11. Energy Cost

2-11-1. This is the cost necessary to play this card from your hand or activate its skill. The cost can be separated into 2 types of cost: the total cost and specified cost.

2-11-1-1. When playing Battle Cards from your hand, first you must reveal that card from your hand and switch the same number of cards in your Energy Area as its total cost to Rest Mode. If the cost of the card you wish to play includes a specified cost, the cards you switch to Rest Mode must include that many cards of that color.

2-11-1-1-1. When the specified cost of the card you wish to play is greater than the total cost, you must choose the same number of cards from your Energy Area with the same color as the specified cost, and switch them to Rest Mode.

2-11-1-2. When activating Extra Card skills from your hand, first you must reveal that card from your hand and switch the same number of cards in your Energy Area as its total cost to Rest Mode. If the cost of the card you wish to activate includes a specified cost, the cards you switch to Rest Mode must include that many cards of that color.

2-11-1-2-1. When the specified cost of the Extra Card you want to activate is greater than the total cost, you must choose the same number of cards from your energy area with the same color as the specified cost, and switch them to Rest Mode.

2-11-2. Only Battle Cards and Extra Cards have Energy Costs.

## 2-12. Skill (Card Text)

2-12-1. This indicates the individual skill this card possesses.

2-12-2. If not specified otherwise, the skills (card text) of Leader Cards and Battle Cards are only active in the Leader Area and Battle Area.

2-12-3. Some text has detailed explanations of keyword skills and other card skills inside (). These are called explanatory notes. Explanatory notes are part of the text, but their purpose is providing further explanations of skills and they themselves do not influence gameplay.

## 2-13. Copyright Inscription

2-13-1. This is the card's copyright inscription.

2-13-2. It does not affect gameplay.

## 2-14. Rarity

2-14-1. This indicates the card's rarity.

2-14-2. It does not affect gameplay.

## 2-15. Card Number

2-15-1. This indicates the card's number.

2-15-2. The number is relevant in game preparation.

2-15-2-1. When preparing for the game, you can only include 4 or fewer copies of the same-numbered card in your deck.

## 2-16. Block

2-16-1. This indicates the block the card is part of.

2-16-2. It does not affect gameplay.

## 3. Game Areas

### 3-1. Areas

3-1-1. If not specified otherwise, both players possess one each of every area.

3-1-2. The number of cards in each area is open information and each player can check the numbers whenever they want to.

3-1-3. Cards in some areas are revealed to both players while others are not. Areas with revealed cards are called open areas while cards with hidden cards are called secret areas.

3-1-4. When Cards move from the Battle Area to an area other than the Combo Area, they are regarded as new cards in those new areas (if not specified otherwise). Effects that were active on those cards in the original area will not be carried over to the new area.

3-1-5. When Cards move from the Combo Area to an area other than the Battle Area, they are regarded as new cards in those new areas (if not specified otherwise). Effects that were active on those cards in the original area will not be carried over to the new area.

3-1-6. If multiple cards are to be placed in a certain area simultaneously, the order in which they are placed into that area is decided by the player of those cards.

3-1-6-1. When the player decides the order of multiple cards being placed into a secret area from an open area, players other than the player of the cards cannot confirm in what order those cards were placed into the secret area.

3-1-7. If a card is directed to move to a certain area, but the directions do not include which player's area, it moves to its player's corresponding area (if not specified otherwise).

3-1-7-1. **When a card is to be moved to an area which belongs to a certain player besides the Battle Area and Combo Area, move the card to the area corresponding to the owner of the card.**

### 3-2. Deck Area

3-2-1. Place your deck here at the beginning of the game.

3-2-2. The Deck Area is a secret area. The cards in this area are placed face-down, and neither player can check the contents or order of those cards, nor can they change their order.

3-2-3. If cards in a deck are to move between areas, move the cards one by one.

3-2-4. If you are requested to shuffle your deck, rearrange the order of the cards in your deck in a random fashion. This action is carried out by the player of the deck, regardless to who activated or possesses the effect requesting the action.

### 3-3. Hand

3-3-1. This is the area where both players place the cards they drew from their deck.

3-3-2. The hand is a secret area, but a player can freely view the contents and change the order of cards in their hand.

3-3-3. Players cannot view the contents of cards in other player's hands.

### 3-4. Drop Area

3-4-1. Place KOed Battle Cards and used (activated their skills) Extra Cards in this area. If the word "Drop" appears in card text, it is referring to the Drop Area.

3-4-2. The Drop Area is an open area. Cards in the area are placed face-up, and either player can freely view the contents of these cards. You may freely change the order of cards in your own Drop Area. When you place new cards in this area, place them on top of the cards originally in the area.

### 3-5. Leader Area

3-5-1. At the beginning of the game, place your Leader Card face-up in this area.

3-5-2. The Leader Area is an open area.

### 3-6. Battle Area

3-6-1. Place your Battle Cards and some Extra Cards in this Area.

3-6-2. The Battle Area is an open area. Cards in this area are

placed face-up.

3-6-3. The act of placing Battle Cards in the Battle Area is called "play."

3-6-4. When placing cards into the Battle Area, place them in Active Mode if not specified otherwise.

3-6-5. You may place any number of Battle Cards in the Battle Area.

3-6-6. You can place as many Extra Cards in the Battle Area as you wish. However, you may only place one Extra Card with [Field].

### 3-7. Combo Area

3-7-1. Battle Cards you wish to combo with are placed in this area.

3-7-2. The Combo Area is an open area. Cards in this area are placed face-up.

3-7-3. The act of placing Battle Cards in the Combo Area is called "combo."

3-7-3-1. You can only combo with cards that have both a combo cost and combo power.

3-7-4. There is no limit to the number of Battle Cards you can place into the Combo Area.

3-7-5. The text of cards in this area is negated by principle.

### 3-8. Energy Area

3-8-1. Place the cards that you use to pay costs during the game in this area.

3-8-2. The Energy Area is an open area. Cards in this area are placed upside-down facing up, and either player can freely view the contents of these cards. You may freely change the order of cards in your own Energy Area. You may choose any card of your preference (from your own Energy Area) when paying costs

3-8-3. When placing cards into the Energy Area, place them in Active Mode if not specified otherwise.

### 3-9. Life Area

3-9-1. Place your Leader's life in this area.

3-9-2. The Life Area is a secret area. The cards in this area are placed face down, and neither player can check the contents of those cards nor can they change their order. You may choose any card of your preference when cards are moved from the Life Area to other areas.

### 3-10. The Warp

3-10-1. The Warp is an area where cards can be placed.

3-10-2. The Warp is an open area. Cards placed in the Warp are

placed face up and can be viewed by any player. You may change the order of cards placed in your own Warp. When placing new cards in the Warp, place them on top of the cards that were originally in the area.

#### 4. Basic Terms

##### 4-1. Skills and Effects

4-1-1. Skills are orders to players generated from card text or other effects.

4-1-1-1. Skills can be largely divided into 3 categories: [Activate], [Permanent], and [Auto].

4-1-2. Effects are the actual details of the orders given to players with skills.

4-1-2-1. Effects can be divided into immediate effects, continuous effects, and replacement effects.

##### 4-2. Player

4-2-1. The player is a card's physical player.

4-2-2. A card is owned by the player who originally had that card in their deck or their Leader Area.

4-2-3. At the end of the game, both players recover all of the cards they own.

##### 4-3. Master

4-3-1. The master is the player currently using cards, skills, or effects.

4-3-2. The master of a card in a certain area is the player that area belongs to.

4-3-3. The master of an [Activate] skill is the master of the card which has that skill or the master of the effect that generated that skill.

4-3-4. The master of a [Permanent] skill is the master of the card which has that skill or the master of the effect that generated that skill.

4-3-5. The master of an [Auto] skill is the master of the card which has that skill or the master of the effect that generated that skill.

##### 4-4. The Turn Player and the Non-Turn Player

4-4-1. The turn player is the player currently proceeding with their turn.

4-4-2. The non-turn player is the player currently not proceeding with their turn.

##### 4-5. Checkpoint

4-5-1. Checkpoints are points of gameplay when rule processing and the activation of [Auto] skills are carried out.

4-5-2. During checkpoints, all rule processing is carried out first. When the process (or processes) is resolved, activate and resolve any [Auto] skills that have fulfilled activation conditions.

4-5-3. If a checkpoint occurs, follow the procedure below.

4-5-3-1. All rules processing that currently needs to be carried out is resolved simultaneously. If a situation requiring new rules processing results, repeat this process as long as rules processing is required.

4-5-3-2. If [Auto] activations for which the turn player is the Master are awaiting resolution, the turn player chooses one, carries out its resolution, and then returns to 4-5-3-1.

4-5-3-3. If [Auto] activations for which the non-turn player is the Master are awaiting resolution, the non-turn player chooses one, carries out its resolution, and then returns to 4-5-3-1.

4-5-3-4. End the checkpoint.

##### 4-6. Free Timing

4-6-1. Free Timing is a point in gameplay when the specified player is allowed to actively carry out actions.

4-6-2. When either player is to be granted free timing, follow the procedure below.

4-6-2-1. A checkpoint occurs.

4-6-2-2. The player is granted free timing. They choose to carry out a possible action or none at all. If they choose to carry out an action, they are granted another free timing (unless specified otherwise).

4-6-2-3. If the player granted free timing chooses to not carry out an action, free timing ends, and the phase and/or step advances.

##### 4-7. Counter Timing

4-7-1. Counter timing is a point in gameplay when the player can activate [Counter] skills (10-10).

4-7-2. Counter timing occurs when the following conditions have been met.

4-7-2-1. A player declares that they're going to play a card (6-3-1-2-1-2.).

4-7-2-2. A player makes an attack (7-1-2.).

4-7-2-3. After a player activates a skill, but before it resolves (8-5-2-5.).

4-7-2-4. After a player resolves a skill (8-5-2-7.).

4-7-2-5. During a counter timing, a new counter timing cannot occur.

4-7-3. Counter timing proceeds in the following order.

4-7-3-1. Carry out impending rule processing simultaneously. If further rule processing is required due to the procedure, continue carrying out the processes until none are left.

4-7-3-2. The master of the pending [Counter] proceeds to 4-7-3-6 or chooses to activate one of the pending [Counter] skills.

4-7-3-3. The player who didn't activate the [Counter] skill before either proceeds to 4-7-3-5 or activates one of the pending [Counter] skills.

4-7-3-4. The player who didn't activate the [Counter] skill before either proceeds to 4-7-3-5 or activates one of the pending [Counter] skills. If the [Counter] is activated, return to 4-7-3-3.

4-7-3-5. Resolve activated [Counter] skills. Resolve the skills in the opposite order they were activated (start from the last one and proceed backwards) regardless of the turn player.

4-7-3-6. End the counter timing, carry out the original action or skill that triggered the counter timing (if possible), then proceed with the game.

4-8. Card Positions

4-8-1. All cards in the Leader Area, Battle Area, and Energy Area are always in either of the following 2 positions during the game.

4-8-1-1. Active Mode: A card positioned vertically from your point of view.

4-8-1-1-1. **As an exception, cards in the energy area that are positioned vertically upside down are considered to be in Active Mode.**

4-8-1-2. Rest Mode: A card positioned horizontally from your point of view.

4-9. Draw a Card

4-9-1. "Drawing a card" is the act of adding the top card of your deck to your hand.

4-9-2. If a player is directed to "draw a card," that player adds 1 card from the top of their deck to their hand without revealing

4-9-3. If a player is directed to "draw X cards," nothing happens if X is 0. If X is 1 or higher, repeat the "draw a card" process that many times.

4-9-4. If a player is directed to draw "up to X cards," nothing happens if the X is 0. If X is 1 or higher, the player carries out the following actions.

4-9-4-1. The player can end this action.

4-9-4-2. The player draws a card.

4-9-4-3. If you have carried out 4-9-4-2. X times, end this action. If not, return to 4-9-4.

4-10. Damage Processing

4-10-1. The act of "inflicting damage (to the opponent's life)" is called damage processing.

4-10-2. If an action inflicts damages to a player, that player follows the procedure below.

4-10-2-1. If the inflicted damage was 1, that player chooses 1 card from their Life Area and adds it to their hand.

4-10-2-2. If the inflicted damage was N, and N is 0, nothing happens. If N was 1 or more, the player repeats the process of "taking 1 damage" that many times.

4-11. Damage Source

4-11-1. Some effects will question where the damage inflicted to the player came from. The answer to the question is called the damage source, and is defined as following.

4-11-1-1. The source of the damage inflicted by attacking during the Damage Step is the attacking card.

4-11-1-2. The source of damage inflicted by a card's skill is that card, if not specified otherwise.

## 5. Game Preparation

5-1. Preparing a Leader Card and a Deck

5-1-1. Each player prepares their own Leader Card and deck before playing the game.

5-1-2. You require 1 Leader Card to play the game.

5-1-3. You require a 50-card deck constructed out of Battle Cards and Extra Cards to play the game.

5-1-3-1. Your deck can only include up to 4 copies of a card with the same card number.

5-1-3-2. [Permanent] skills that affect deck construction rules

are regarded as replacement effects which replace the above rules concerning deck construction.

5-1-3-2-1. [Permanent] skills that affect deck construction refer to [Permanent] skills with text that specifies "You can include (X) copies of (a card) in your deck" or "You can only include (X) copies of (a card) in your deck."

5-1-3-2-2. [Permanent] skills that affect deck construction take effect during deck preparation.

## 5-2. Before Playing the Game

5-2-1. Before playing the game, each player must follow the procedure below.

5-2-1-1. Present the Leader Card and deck you are going to use this game. This deck must fulfill the deck construction rules given in 5-1.

5-2-1-2. Each player places their Leader Card face-up in the Leader Area.

5-2-1-3. The trigger condition for "When this card is placed in the Leader Area" is fulfilled, and then a checkpoint occurs.

5-2-1-3-1. Deciding the first player cannot be in anyway a conscious choice. A player, even if chosen randomly, cannot have a choice on whether they play first or not.

5-2-1-4. Each player draws 6 cards from their deck as their opening hand. Then, from the starting player, each player has 1 chance to redraw their hand following the procedure below.

5-2-1-4-1. Return any number of cards to your deck. Draw that many cards from your deck.

5-2-1-5. Each player places the top 8 cards of their deck face-down in their Life Area.

5-2-1-6. The first player begins the game and starts their turn.

## 6. Game Progress

### 6-1. Turn Flow

6-1-1. The game progresses by the turn player. The turn player proceeds the various phases of a turn following the procedure below. These phases complete a turn.

### 6-2. Charge Phase

6-2-1. The trigger conditions "At the beginning of the turn"

and "at the beginning of the Charge Phase" are fulfilled, and then a checkpoint occurs.

6-2-2. Switch all of your cards in the Leader Area, Battle Area, and Energy Area which are in Rest Mode to Active Mode.

6-2-3. The turn player draws 1 card from their deck. The player playing first does not draw on their first turn.

6-2-4. A checkpoint occurs.

6-2-5. The turn player places 1 card from their hand into the Energy Area.

6-2-6. A checkpoint occurs. When all necessary procedures are carried out for this checkpoint, proceed to the Main Phase.

### 6-3. Main Phase

6-3-1. The turn player can carry out various actions in the Main Phase. Proceed the Phase following the procedure below.

6-3-1-1. The trigger condition "At the beginning of the Main Phase" is fulfilled, and then a checkpoint occurs.

6-3-1-2. The turn player is granted a free timing. Checkpoint and counter timings corresponding to each action also occur. The player can carry out any of the actions allowed during the Main Phase (stated below) during this free timing.

6-3-1-2-1. The turn player can place a Battle Card from their hand into the Battle Area and play it. Follow the procedure below to play a card.

6-3-1-2-1-1. Switch the cost's worth of energy to Rest Mode to declare that you are playing a card. If you cannot switch the necessary amount of cards to Rest Mode, you cannot make the declaration.

6-3-1-2-1-2. A counter timing occurs. The non-turn player can activate [Counter: Play] skills which conditions have been fulfilled.

6-3-1-2-1-3. Actually playing the Battle Card.

6-3-1-2-2. The turn player can activate [Activate: Main] skills of their own Leader Cards, Battle Cards, or Extra Cards.

6-3-1-2-2-1. A counter timing occurs before the skill is activated. (The non-turn player can activate [Counter] skills for which they've met the conditions.)

6-3-1-2-2-2. [Awaken] is one type of [Activate] ability. It can be activated at this timing.

6-3-1-2-3. The turn player can attack their opponent's cards with cards which they are the master of.

Check the details for battle in the later “Card Attacking and Battle” section.

6-3-1-2-4. **The turn player can choose to end their Main Phase. If they do so, proceed to the Main Phase End Step.**

6-3-1-3. Main Phase End Step

6-3-1-3-1. End the turn’s Main Phase in this step. Proceed with the step following the procedure below.

6-3-1-3-1-1. Fulfill any “At the end of the Main Phase” trigger conditions of [Auto] effects that had not yet been fulfilled this turn.

6-3-1-3-1-2. A checkpoint occurs. After resolving all necessary processing for the checkpoint, all effects that last “Until the end of the Main Phase” dissipate.

6-3-1-3-1-3. Proceed to the End Phase

6-4. End Phase

6-4-1. Carry out various processes that occur at the end of a turn in this phase. Proceed with the End Phase following the procedure below.

6-4-1-1. Fulfill any “At the end of the turn” trigger conditions of [Auto] skills that had not yet been fulfilled this turn.

6-4-1-2. A checkpoint occurs. After resolving all necessary processes for the checkpoint, all effects that last “Until the end of the turn” dissipate.

6-4-1-3. If at this timing [Auto] skills haven’t been resolved or rule processing isn’t finished at the checkpoint given in 6-4-1-2., and if there are no unfulfilled trigger conditions of [Auto] skills or other leftover trigger conditions of [Auto] skills among such “at the end of the turn” conditions, the opposing player of the current turn player becomes the turn player, ending the turn and proceeding to the next turn’s Charge Phase. If not, carry out the End Phase procedure once again from the beginning.

## 7. Card Attacking and Battle

7-1. **During the Main Phase, the turn player can switch an Active Mode Leader Card/Battle Card in their Leader Area or Battle Area to Rest Mode in order to attack the opponent’s Leader Card or Battle Cards in Rest Mode. If the player chooses to attack, a battle occurs. The attacking card becomes an attack card and the attacked card becomes a guard card until the attack is negated**

**or the battle ends. Then, follow procedures 7-1-1. to 7-1-3 in order.**

7-1-1. “When this card attacks,” “When this card is attacked,” and [Blocker] skills trigger.

7-1-2. A counter timing occurs. The non-turn player can activate a [Counter: Attack] skill which condition has been fulfilled.

7-1-3. A checkpoint occurs.

7-1-4. If the attack has not been negated, **proceed to 7-2. Offense Step. If an effect has caused the number of Attack Cards or Guard Cards to be reduced to zero, proceed to 7-1-4-1. If the attack has been negated, proceed to 7-1-4-1.**

**7-1-4-1. All Battle Cards in each player’s Combo Area are placed in their respective owner’s Drop Areas.**

**7-1-4-2. “End of battle” effects trigger, and a checkpoint occurs.**

**7-1-4-3. Effects that last for the duration of a battle end.**

**7-1-4-4. The battle ends. Return to 6-3-1-2.**

7-2. Offence Step

7-2-1. The turn player carries out various actions in this step.

Proceed with the Offence Step following the procedure below.

7-2-1-1. The trigger conditions “At the beginning of the Offence Step” are triggered and a checkpoint occurs.

7-2-1-2. The turn player is granted a free timing. Checkpoints and counter timing also occur if the player combos or activates skills. The player may choose and carry out the following actions at this free timing.

7-2-1-2-1. The turn player can move any of their Active Mode Battle Cards other than their attack card to the Combo Area to combo.

**7-2-1-2-1-1. If they do so, the player must switch an amount of energy equal to the required combo cost to Rest Mode, and declare the combo.** If they cannot do so, they cannot declare a combo.

7-2-1-2-2. The turn player can place a Battle Card in their hand into the Combo Area to combo.

**7-2-1-2-2-1. If they do so, the player must switch an amount of energy equal to the required combo cost to Rest Mode, and declare the combo.** If they cannot do so, they cannot declare a combo.

7-2-1-2-3. The turn player can activate the [Activate: Battle] skills of their own Leader Card, Battle Card,

or Extra Card.

7-2-1-2-3-1. A counter timing occurs. (The non-turn player can activate [Counter] skills whose conditions have been fulfilled.)

7-2-1-2-3-2. [Awaken] is an [Activate] skill. It activates at this timing.

7-2-1-3. If the turn player chooses to do nothing, proceed to the Defense Step.

### 7-3. Defense Step

7-3-1. The non-turn player carries out various actions in this step. Proceed with the Defense Step by following the procedure below.

7-3-1-1. The trigger conditions "At the beginning of the Defense Step" are triggered and a checkpoint occurs.

7-3-1-2. The non-turn player is granted a free timing. Checkpoints and counter timing also occur if the player combos or activates skills. The player may choose and carry out the following actions at this free timing

7-3-1-2-1. The non-turn player can move any of their Active Mode Battle Cards other than their guard card to the Combo Area to combo.

7-3-1-2-1-1. If they do so, the player must switch the required cost worth of energy to Rest Mode. If they cannot do so, they cannot declare a combo.

7-3-1-2-2. The non-turn player can place a Battle Card in their hand into the Combo Area to combo.

7-3-1-2-2-1. If they do, the player must switch the required cost worth of energy to Rest Mode. If they cannot do so, they cannot declare a combo.

7-3-1-2-2-2. The non-turn player can activate the [Activate: Battle] skills of their own Leader Car, Battle Card, or Extra Card.

7-3-1-2-2-3. [Awaken] is an [Activate] skill. It activates at this timing.

7-3-1-3. If the non-turn player decides to do nothing, proceed to the Damage Step.

### 7-4. Damage Step

7-4-1. Each battle is resolved in a Damage Step. Resolve the step following the procedure below.

7-4-1-1. The trigger condition "At the beginning of your

Damage Step" is fulfilled and a checkpoint occurs.

7-4-1-2. Add all Combo Power of the turn player's cards in the Combo Area to the attack card.

7-4-1-3. Add all Combo Power of the non-turn player's cards in the Combo Area to the guard card.

7-4-1-4. Compare the power of the attack card and the guard card. If the attack card's power is higher than or equal to the guard card's power, follow the procedure below. If not, do not carry out any procedures reflecting the result of the battle, but proceed to, proceed to 7-4-1-5 instead.

7-4-1-4-1. If the guard card is the Leader Card, the attack card inflicts 1 damage to the non-turn player. The non-turn player chooses 1 card in their Life Area and adds it to their hand.

7-4-1-4-2. If the guard card is a Battle Card, it is KOed and moved to the Drop Area.

7-4-1-5. A checkpoint occurs.

7-4-1-6. Place all Battle Cards in the Combo Area into their master's Drop Area.

7-4-1-7. All power increases/decreases from combos on the attack cards and guard cards dissipate.

7-4-1-8. All effects that last "during that battle" dissipate.

7-4-1-9. The trigger condition "At the end of a battle" is fulfilled and a checkpoint occurs.

7-4-1-10. End the battle and return to 6-3-1-2.

## 8. Activating and Resolving Skills

### 8-1. Skill

8-1-1. A skill refers to an order generated from card text and its cost.

8-1-2. Skills can be divided into 3 categories: [Activate], [Permanent], and [Auto].

8-1-3. [Activate] skills are skills that a player can activate by paying the skill cost and fulfilling its conditions when granted a free timing.

8-1-3-1. [Activate] skills are described on card text in the following formats: "[Activate: Main] skill cost: effect" or "[Activate: Battle] skill cost: effect." The text before the colon is the skill cost necessary to activate the [Activate] skill, and the following text is the actual effect of the text.

8-1-3-1-1. Some [Activate] skills of Battle Cards and Leader Cards do not have skill cost. Those skills can be activated by declaring them.

8-1-3-1-2. Some [Activate] skills of Extra Cards do not have skill costs. Those skills can be activated by paying the Extra Card's energy cost. Such skills are described on card text in the following formats: "[Activate: Main] effect" or "[Activate: Battle] effect."

8-1-4. [Permanent] skills are skills that constantly have some kind of effect on gameplay while they are active.

8-1-4-1. [Permanent] skills are described on card text in the following format: "[Permanent] effect."

8-1-5. [Auto] skill automatically activate when the event specified by the skill occurs during the game.

8-1-5-1. [Auto] skills are described on card text in the following formats: "[Auto] When (condition) do (effect)" or "[Auto] At the beginning of the (phase or step), do (effect)" or "[Auto] At the end of the (phase or step), do (effect)." The (condition) and (phase or step) parts are called trigger conditions.

## 8-2. Effects

8-2-1. Effects are the actual details of the orders given to players with skills.

8-2-2. Effects can be divided into immediate effects, continuous effects, and replacement effects.

8-2-2-1. The directions of immediate effects are carried out at end during the resolution of the effect. The effects of skills such as "Draw 1 card" or "Place this card in the Drop Area" are immediate effects.

8-2-2-2. Continuous effects last for a specific amount of time (including effects that don't specify how long, such as "during the game" effects) during the game. The effects of skills such as "During the battle, this card gains +5000 power" are continuous effects.

8-2-2-3. Replacement effects replace certain events during the game with the event specified in the effect.

8-2-2-3-1. The effect of a skill directing to "When doing A, do B instead" is a replacement effect.

## 8-3. Valid and Negated Skills

8-3-1. Some effect may render other specific effects valid or invalid.

In such an occasion, follow the procedure below.

8-3-2. If an effect specifies that some effect is partially or totally negated under specific conditions, the negated effect (under those conditions) are recognized as a skill but their effects cannot be activated. If the negated effect requests a choice, the choice itself is not made.

8-3-3. If some effect is specified as partially or totally valid under specific conditions, that part is negated (if the specific conditions are not fulfilled).

## 8-4. Skill Cost

8-4-1. An [Activate] skill may have certain actions specified after a colon. Those actions are called skill costs.

8-4-2. "To pay the skill cost" means to "carry out the action specified in the skill cost."

8-4-2-1. If 1 skill cost includes multiple actions, carry them out from the beginning of the text.

8-4-2-2. If you cannot pay a part or all of a skill cost, that means you cannot pay the cost at all.

## 8-5. Activating and Resolving

8-5-1. [Activate], [Auto], [Awaken], and cards in your hand are resolved by activating them, triggering their effects. [Permanent] skills do not activate; their effects are constantly active.

8-5-2. Activate skills following the procedure below.

8-5-2-1. Specify which skill you wish to activate. If you wish to activate the skill of a card in your hand, reveal that card.

8-5-2-2. If a skill requires some kind of choice, carry it out.

8-5-2-3. If there is a necessary skill cost, determine that cost and pay it entirely.

8-5-2-3-1. When activating Extra Card skills, determine the Extra Card's cost and pay it.

8-5-2-4. [The skill is activated.](#)

8-5-2-5. A counter timing occurs.

8-5-2-6. Resolve the skill.

8-5-2-6-1. If you activated an Extra Card skill, place the card in the Drop Area and carry out the skill's effect.

8-5-2-6-2. If you activated the [Activate] or [Auto] of a card in the Leader Area, Battle Area, or Combo Area, carry out the skill's effect.

- 8-5-2-7. A counter timing occurs.
- 8-5-3. If the skill describes to “choose...” choose the indicated target card or player (target) when required to do so during the resolution of the skill.
- 8-5-3-1. If the number of targets you choose is specified, you must choose as close a number to that number as possible. You cannot purposefully choose fewer targets than the specified number.
- 8-5-3-2. If the number is specified as “up to...” of “...or less,” you can select any number of targets from 0 to the specified number.
- 8-5-3-3. If the number of targets is specified, but some of the targets cannot be chosen, choose as many targets as possible and resolve the specified effect against them.
- 8-5-3-4. If the number of targets is specified, but none of the targets can be chosen, no targets are chosen. All effects concerning those targets are ignored.
- 8-5-3-5. If the specified target is a card in a secret area, and if the choice requires information of the card, you cannot guarantee that the target is a card that meets the required conditions. Thus a player can decide not to choose a card from a secret area, even if it may fulfill the conditions.
- 8-5-3-6. If the text does not specify a target, if the effect concerns a card it is targeting the source of the effect, or if the effect concerns a player it is targeting the master of the effect.
- 8-5-3-7. When choosing a card from a deck, confirm the front face of the deck, then select the specified card from within it.
- 8-5-4. Unless specified otherwise, if the text refers to a “Battle Card,” it’s referring to a Battle Card in the Battle Area.
- 8-5-5. If the text refers to an “Energy Card,” it’s referring to a card placed in the Energy Area.
- 8-5-6. If the text refers to “Life,” it’s referring to a card placed in the Life Area.
- 8-6. Resolving [Auto] Skills
- 8-6-1. [Auto] skills are skills that automatically activate at the checkpoint which occurs when a specific trigger condition is fulfilled.
- 8-6-2. When the trigger condition of an [Auto] skill is fulfilled, that [Auto] skill is made pending.
- 8-6-3. If the trigger condition of a [Auto] skill is fulfilled multiple times, that [Auto] skill is made pending that many times.
- 8-6-4. When a checkpoint occurs, a player being requested to activate an [Auto] skill chooses 1 pending [Auto] which they are the master of and activates it. After resolving the activated skill, decrease the number of those pending [Auto] skills (of that skill) by 1.
- 8-6-4-1. If for some reason the chosen pending [Auto] skill cannot be chosen, cancel 1 of those pending [Auto] skills (of that skill).
- 8-6-5. There are [Auto] skills for which trigger condition is a card moving areas. This is called an area movement trigger.
- 8-6-5-1. An [Auto] skill activated by an area movement trigger may request information of the card that triggered the skill. Is such an occasion, track the information following the procedure below.
- 8-6-5-1-1. If an [Auto] skill triggered by the movement of a card/cards from an open area to a secret area (or vice versa) requests information of the card, use the information of the card as it was/is in the open area.
- 8-6-5-1-2. If an [Auto] skill triggered by the movement of a card/cards in the Battle Area to any other area or an [Auto] skill concerning the inter-player area movement requests information of the card, use the information of the card as it was/is in the Battle Area.
- 8-6-5-1-3. If an [Auto] skill (other than those described in 8-6-5-1-2) triggered by the movement of a card/cards from an open area to an open area requests information of the card, use the information of the card as it was/is in the Battle Area.
- 8-6-6. An [Auto] may have a trigger condition of not a specific event but the fulfillment of a certain condition (example: When there are no cards in your hand...). These kinds of condition are called situation triggers.
- 8-6-6-1. A situation trigger is made pending (only once) when the specified situation occurs. After this [Auto] skill is

resolved, if the trigger condition is to be fulfilled once again, the skill too is put into pending once again.

8-6-7. If a pending [Auto] skill activates, yet the card with that skill is no longer in the same area, you must still activate that [Auto] skill. However, if the effect of that [Auto] skill has become impossible to carry out due to the change of areas, the effect fails to resolve.

#### 8-7. Processing Immediate Effects

8-7-1. If you are requested to carry out an immediate effect, carry the specified action once.

#### 8-8. Processing Continuous Effects

8-8-1. When information of a card is requested while some continuous effect is effective, follow the procedure below to apply the continuous effect to that information.

8-8-1-1. The information specified on a card itself will always be base reference for information.

8-8-1-2. Next, apply all continuous effects except for effects that rewrite numerical information.

8-8-1-3. Then, apply all continuous effects which rewrite numerical information.

8-8-1-4. All continuous effects except for those generated by [Permanent] skills are not applied to cards that have moved to different areas from the Leader Area or Battle Area after the effect was resolved.

8-8-1-5. Continuous effects that rewrite the information of cards in specific areas are applied immediately as cards enter that area.

8-8-1-5-1. An [Auto] skill triggered by a card with specific information entering an area checks the said information after any continuous effects are applied to the area.

#### 8-9. Processing Replacement Effects

8-9-1. If a replacement effect is active, the specified event is not processed when it occurs, and the event specified by the replacement effect is processed instead.

8-9-1-1. Thus, the original event is treated as if it never happened.

8-9-2. If there are multiple replacement effects concerning a single event, the player affected by the event decides which replacement effect to activate.

8-9-2-1. If cards or skills are the subject of the replacement,

the master of those cards or skills makes the choice.

8-9-2-2. If actions during the game are the subject of the replacement, the player carrying out action or the master of the target card of the action makes the choice.

8-9-2-3. Each replacement effect can only be applied once for the same subject event.

8-9-3. If the replacement effect is a voluntary replacement effect (when X, you can do X instead. If so, do X), and you are unable to make that choice, you cannot apply the replacement effect.

#### 8-10. The Final Information of a Card

8-10-1. If some effect is referring to a specific card's information or state, and if the card is moving from one area to another during the application of the effect, the effect refers to the card's information as it is in the final area to which it moved.

## 9. Rule Processing

### 9-1. Fundamental Rules

9-1-1. Rule processing is a general term referring to various automatic processing by the rules for specific events throughout the game.

9-1-2. Rule processing can be widely divided into interruptive rule processing and confirmative rule processing.

9-1-2-1. Interruptive rule processing is immediately resolved when it occurs, even while carrying out other actions.

9-1-2-2. Confirmative rule processing is carried out only during checkpoints and counter timing, and only if the conditions are fulfilled. Even if the conditions are fulfilled during another action, if the condition is not fulfilled during the checkpoint or counter timing the rule processing is not carried out.

9-1-2-3. If multiple confirmative rule processing requests are made at the same time, carry them out simultaneously.

### 9-2. Loss Judgement Processing

9-2-1. Loss judgement processing is interruptive rule processing.

9-2-2. At the beginning of rule processing, if any player fulfills the loss conditions below, all of those players lose the game.

9-2-3. If any of the players has no cards in their Life Area, that player has fulfilled the loss conditions.

9-2-4. If any of the players has no cards in their deck, that player has fulfilled the loss conditions.

### 9-3. Invalid Combo Processing

9-3-1. Invalid combo processing is confirmative rule processing.

9-3-2. If a Battle Card/Cards is placed in the Combo Area at any other timing than battle, place all of those cards in their player's Drop Area.

9-4. Processes for when placed on top of specific cards.

9-4-1. When placed on top of specific cards, process it with the interruptive rule processing.

9-4-2. When a new card is placed on an existing card either in the Battle Area or Leader Area, the modifiers and information on the existing card are applied to the card placed on top of it.

9-5. Processing when a Battle Card's power drops to zero or below.

9-5-1. Confirmative rules processing is used when a Battle Card's power drops to zero or below.

9-5-2. If a Battle Card's power drops to zero or below, that card is KO-ed.

9-5-2-1. After an effect causes a card's power to change, if that Battle Card's power drops to zero or below and is KO-ed as a result of rules processing dictating Battle Cards be KO-ed when their power drops to zero or below, that Battle Card is considered to have been KO-ed by that effect.

## 10. Keywords and Keyword Skills

### 10-1. KO

10-1-1. KO refers to the act of moving a Battle Card from the Battle Area to its owner's Drop Area.

10-1-2. A card is only KO-ed when an effect says to "KO" a card, or because of a rule that specifies to KO a card. Battle Cards in an owner's Drop Area that were placed there for other reasons weren't necessarily "KO"-ed.

### 10-2. [Awaken]

10-2-1. [Awaken] is an [Activate] skill that players can activate by fulfilling the conditions and paying the cost.

10-2-2. [Awaken] is described as the following: [Awaken] (condition) (effect).

10-2-3. A card for which [Awaken] is activated is turned face-down, but is treated as the same card.

10-2-3-1. "The same card" means that the card is 1 card with

different information on the front and back.

10-2-4. If a card turned face-down due to [Awaken] is turned face-up, it is still treated as the same card.

10-2-4-1. "The same card" means that the card is 1 card with different information on the front and back.

10-2-5. When a card's facing is flipped due to [Awaken], the card's pre-flipped position and any continuous effects affecting the card's power are carried over.

### 10-3. [Field]

10-3-1. [Field] is an [Activate: Main] effect of Extra Cards that reads "Place this card in the Battle Area in Active Mode."

10-3-2. Extra Cards with [Field] may have skills other than [Field]. Those skills are generally only valid when the card is placed in the Battle Area, and they are activated/active without placing the card in the Drop Area (if not specified otherwise).

10-3-3. When activating another [Field] effect, during resolution, all other Extra Cards with [Field] in your Battle Area other than the one you activated are placed in the Drop Area.

### 10-4. [Blocker]

10-4-1. [Blocker] is an [Auto] keyword skill which is activated by switching the card to Rest Mode when any other of your cards was attacked. When activated, switch the target of the attack to the card which activated [Blocker].

10-4-2. "Negate [Blocker]" is a special procedure in which the target of the attack is switched back to the original target

### 10-5. [Evolve] (EX-Evolve)

10-5-1. [Evolve] ([EX-Evolve]) is an [Activate: Main] skill that can be activated by paying the skill cost when a Battle Card(s) of the specified name fulfilling the specified conditions is in play in the Battle Area.

10-5-2. [Evolve] ([EX-Evolve]) can only be activated from your hand

10-5-3. [Evolve] ([EX-Evolve]) is described as the following: [Evolve] ([EX-Evolve]): skill cost condition <character name> .

10-5-3-1. Sometimes conditions are not specified. In these cases, no condition is required.

10-5-4. A card with activated [Evolve] ([EX-Evolve]) is played on top of a Battle Card already in play. Henceforth, the whole stack of cards is treated as 1 card, but the position and any effects affecting the prior card are carried on.

### 10-6. [Critical]

10-6-1. [Critical] is a [Permanent] effect which is described, "When

this card inflicts damage to your opponent's life, they place that many cards in their Drop Area instead of their hand."

#### 10-7. [Strike]

10-7-1. [Strike] is a [Permanent] skill which is described, "When this card attacks, if it deals x-1 damage, this card inflicts X damage instead."

10-7-1-1. The X of [Double Strike] is 2.

10-7-1-2. The X of [Triple Strike] is 3.

10-7-1-3. The X of [Quadruple Strike] is 4.

#### 10-8. [Dual Attack] ([X Attack])

10-8-1. [Dual Attack] is an [Once per turn] [Auto] skill which is described, "When this card attacks, switch this card to Active Mode after the battle." The skill activates X-1 times per turn.

10-8-1-1. The X of [Dual Attack] is 2.

10-8-1-2. The X of [Triple Attack] is 3.

#### 10-9. [Revenge]

10-9-1. [Revenge] is an [Auto] skill which is described, "At the end of the battle when this card is attacked by a Battle Card, or when this card is KO-ed in battle by a Battle Card, KO the opponent's card after the battle."

#### 10-10. [Counter]

10-10-1. [Counter] is a keyword skill that enters pending when another player carries out the action or activates the skill specified in the text, and then can be activated by paying its skill cost at counter timing.

10-10-2. [Counter] can only be activated from your hand.

10-10-3. [Counter] is described as follows: "[Counter: Activation condition] Skill cost: Effect."

10-10-3-1. [Counter: Play] skills enter pending when the opponent pays the energy cost and declares to play a card, when the opponent activates a skill that has descriptions such as "Play" or "When played," or after the opponent resolves an effect that has descriptions such as "Play" or "When played."

10-10-3-2. [Counter: Attack] skills enter pending when the opponent declares an attack or when the opponent **activates or resolves a skill** that has descriptions such as "Attack" or "When attacking."

10-10-3-3. [Counter: Counter] skills enter pending when the opponent declares activation of a [Counter] skill.

10-10-3-4. **[Counter] skills leave pending when you activate**

**the [Counter] or when counter timing ends.**

10-10-4. Cards which activated [Counter] are placed in the Drop Area (if not specified otherwise).

10-10-5. **"Negate [Counter]" refers to preventing the effect from an already active [Counter] skill from resolving.**

#### 10-11. [Once per Turn]

10-11-1. [Once per turn] is a keyword that specifies that an [Auto] or [Activate] skill can only be activated once during a turn.

10-11-2. The "once per turn" limitation is set individually for each skill. If there are multiple cards with the same "once per turn" skill, they can each be activated once during a turn.

10-11-3. Skills without "once per turn" limitations can be activated as many times as a player wishes, as long as they can pay the skill cost and the conditions are fulfilled.

#### 10-12. [Indestructible]

10-12-1. [Indestructible] is a [Permanent] **keyword** skill. Cards with [Indestructible] cannot be KO-ed nor can be removed from the battle area by your opponent's card's skills or battle results.

#### 10-13. [Union-Fusion]

10-13-1. [Union-Fusion] is an [Activate: Main] **keyword** skill that can be activated when you have one of each specified character's Battle Cards, and each Battle Card's power is equal.

10-13-2. [Union-Fusion] can only be activated from your hand.

10-13-3. [Union-Fusion] is described in [Union-Fusion] skill cost: <Character Name A> and <Character Name B>.

#### 10-14. [Union-Potara]

10-14-1. [Union-Potara] is an [Activate: Main] **keyword** skill that can be activated by paying a skill cost when each specified character's Battle Card is in the Battle Area.

10-14-2. [Union-Potara] can only be activated from your hand.

10-14-3. [Union-Potara] is described as [Union-Potara] Skill Cost] <Character Name A> and <Character Name B>.

10-14-4. Cards that activate [Union-Potara] are placed on top of two existing battle cards, and appear as Activated.

#### 10-15. [Union-Absorb]

10-15-1. [Union-Absorb] is an [Activate: Main] **keyword** skill that can be activated by placing specified cards from specified areas onto cards that have activated [Union-Absorb].

10-15-2. [Union-Absorb] can be activated when it is in the Battle

Area.

10-15-3. [Union-Absorb] is described as “[Union-Absorb] Skill Cost: Effect.”

10-16. [Ultimate]

10-16-1. [Ultimate] is a [Permanent] keyword skill related to deck construction. You may only have one card with [Ultimate] in your deck.

10-17. [Over Realm] ([Over Realm X])

10-17-1. [Over Realm] is an [Activate: Main] keyword skill that can be activated when you have X or more cards in your Drop Area.

10-17-2. [Over Realm] is described as follows: [Over Realm X] skill cost.

10-17-3. By activating [Over Realm] when it's in your hand, you can play the card with [Over Realm] by moving all cards in your Drop Area to your Warp.

10-17-4. If the card played with [Over Realm] is still in the Battle Area at the end of the turn it was played with [Over Realm], it is sent to the Warp.

10-17-5. [Over Realm] can only be activated once per turn.

10-18. [Xeno-Evolve]

10-18-1. [Xeno-Evolve] is an [Activate: Main] keyword skill that can be activated by paying the skill's cost when the Battle Card(s) with the specified character name is in play in your Battle Area.

10-18-2. [Xeno-Evolve] can only be activated from your hand.

10-18-3. [Xeno-Evolve] is described as “[Xeno-Evolve] Skill Cost: <Character Name>”

10-18-3-1. By activating [Xeno-Evolve], you send the Battle Card in your Battle Area with the specified character name to your Warp and put the card with [Xeno-Evolve] into play in Active Mode.

10-18-3-1-1. This is treated the same as if you played the card via [Evolve].

10-19. [Barrier]

10-19-1. [Barrier] is a permanent keyword skill that reads “*This card can't be chosen by the skills of your opponent's cards.*”

10-20. [Super Combo]

10-20-1. [Super Combo] is a permanent keyword skill affecting deck construction that states “When including cards with [Super Combo] in a deck, you can only include four cards total with

[Super Combo].

10-21. Token

10-21-1. A token is a Battle Card created by the ability processing of cards.

10-21-2. Tokens have the same information as cards. When referencing the token's information for Skills, etc., refer to the specified information of the effect when creating the token.

10-21-3. If nothing is particularly specified, the token appears in the Battle Area of the Owner of the effect that created the Token.

10-21-4. When creating a '(Name) Token,' the Token will have the same name as the (Name).

10-21-5. Unless particularly regulated by rules, tokens will be dealt with similarly as cards.

10-21-6. When selecting a card from a specific area, you may also select a token. Similarly, when effects are applied to cards in a specific area, the effect will also be applied to tokens.

10-21-7. When tokens are moved from the Battle Area or Combo Area to different areas, remove the token from its current area. The token will no longer exist in any areas of the game.

10-22. Remove from the game

10-22-1. Remove from the game means to remove specified cards outside of the game.

10-22-2. Cards removed from the game do not exist in any areas.

10-17-3. Cards removed from the game must be faced up, and open to all players to see.

## 11. Other

11-1. Infinite Loop

11-1-1. When carrying out some processes, there may be some occasions where an action can be or must be carried out infinitely. This is called an infinite loop, and 1 cycle of action from the start to the end of loop is called a loop action. If such an event occurs, follow the procedure below.

11-1-1-1. If neither player can stop that infinite loop, the game ends as draw.

11-1-1-2. If only one player has the choice to stop the infinite loop within the loop action, that player declares how many times they wish to carry out the loop action. Carry out the loop action that many times and finish it at the timing with which that player can make a choice to stop the infinite loop. The player cannot choose to restart the loop even if in the exactly same

state (all cards are in the same areas) as before the loop unless they are forced to do so due to effects such as [Auto] effects.

11-1-1-3. If both players have the choice to stop the infinite loop within the loop action, the turn player first decides how many times they wish to carry out the loop action. Then the non-turn player decides how many times they wish to carry out the loop action. Carry out the loop action the smaller amount of times declared by the players and finish it at the timing which that player can make a choice to stop the infinite loop. The player that decided on a larger number cannot choose to restart the loop even if in the exactly same state (all cards are in the same areas) as before the loop unless they are forced to do so due to effects such as [Auto] effects.

## 11-2. Revealing Cards

11-2-1. When moving cards from a Secret Area to another Secret Area in certain conditions, such as "Add <Son Goku> from the deck to your hand," moved cards must be revealed, even when there is no direction that specifically states so.

## 11-3. Cards on the Bottom

11-3-1. Depending on Skills, etc., cards in the Battle Area, Combo Area, and Leader Area, may have cards placed on top or below them.

11-3-2. The Skills of cards placed beneath specific cards will be nullified, and will be treated as the same card as the card placed on top of it as a single card.

11-3-3. When new cards are placed underneath cards with a card already underneath it, the new card will be placed on the very bottom.

11-3-4. When cards are moved from the Battle Area to anywhere else than the Combo Area, or if cards are moved from the Combo Area to anywhere else than the Battle Area, cards underneath that card will be moved from its original area to the Drop Area. During this time, the bottom card's [Auto] abilities, triggered by Area Movement, do not activate.

11-3-5. When a specific card is moved from one player's area to another player's area, all of the cards placed

beneath the card move with it.

11-3-6. When only the card on top is to be moved, the bottom card will not move from the area where the card on top was in, and will gain the top card's modifiers and information.

## 11-4. Send to the Warp

11-4-1. Sending a card to the Warp means to place the specified card face up in its owner's Warp.

## 11-5. Gain Control

11-5-1. To gain control of a card means to move another player's card to your own area and become its master.

11-5-1-1. A card retains its original positioning and facing after you gain control of it. Any effects in place on the card remain as well.

## Update History

5/8/2017—ver. 1.00

7/27/2017—Updated to ver. 1.01. Added update details.

10/8/2017—Updated to ver. 1.02. Added update details

11/16/2017—Updated to ver. 1.03. Added specifications clarifying that skills which do not target a certain player only affect cards which belong to the same master.

12/13/2017—Updated to ver. 1.04.

1/26/2018—Updated to ver. 1.05.

2/16/2018—Updated to ver. 1.06.
